SUMMARY

Software Engineer and Computer Science student with 6+ years of experience building backend and mobile systems across client-facing products. Experienced in reactive programming, REST APIs, authentication, caching, observability, CI/CD, and native/cross-platform mobile development.

PROFESSIONAL EXPERIENCE

Konrad Group

Senior Software Developer

La Unión, Cartago

Sep 2026 – Present

Software Developer

Jan 2022 – Jul 2025

- Delivered backend and mobile features for banking, food delivery, and airline clients across cross-functional product teams.
- Built reactive backend services and REST APIs with Java, Spring Boot, authentication, Redis caching, relational databases, security, and observability.
- Developed Flutter and Android applications using Kotlin, Jetpack, Firebase, testing, BLoC, and Clean Architecture.
- Contributed to architecture, CI/CD pipelines, and production-ready delivery from design through deployment.

ACADEMIC EXPERIENCE

Universidad de Costa Rica

Teaching Assistant

Montes de Oca, San José

Mar 2019 – Present

- Supported 10+ course offerings in programming, discrete structures, software design, databases, software quality, computing foundations, and ethics through labs, grading, and mentoring.

Frontend Developer, Intern

Aug 2021 – Dec 2021

- Built a real-time delivery SPA with Angular and Firebase.
- Collaborated with UI/UX designers and set up CI with GitHub Actions.

Mobile Developer, R&D

Jul 2020 – Jan 2021

- Created a COVID-19 checklist app with Flutter and Firebase for symptom tracking.
- Used Clean Architecture and BLoC for scalable, testable code.

EDUCATION

Universidad de Costa Rica

Master of Science in Computer Science and Informatics

Montes de Oca, San José

Aug 2026 – Present

- Relevant coursework: Applied Research Methods, Quantum Mechanics for Computing

Bachelor of Science in Computer Science

Aug 2025 – Present

- Relevant coursework: Computer Architecture, Computability & Complexity, AI, Optimization, Experimental Design, Computing Research, Data Analysis, Differential Equations, Numerical Methods

Bachelor of Science in Software Engineering

Mar 2018 – Dec 2021

- Relevant coursework: HCI, Software Design, Web and Mobile Applications, Project Management, Software Quality and Testing, Advanced Databases, Systems Security
- Highest GPA Awards, Software Engineering and Engineering Field (GPA 3.95/4.00), June 2020

CERTIFICATION

Oracle Certified Professional: Java SE 17 Developer

Oracle

Issued Nov 2023

SKILLS

General: C++, SQL, Git, Azure DevOps, GitLab CI/CD

Backend & Web: Java, TypeScript, C#, Spring Boot, REST APIs, Redis, Angular, React, Vue, .NET, HTML, CSS

Mobile: Kotlin, Swift, Dart, Flutter, Android Jetpack, Firebase, BLoC, Clean Architecture

Data & ML: Python, R, Jupyter, Google Colab, PyTorch, Keras, MATLAB
